Altitude Interactive is a digital design agency.

We specialise in website design, development, branding and graphic design.

altitude interactive / about us

We are a team of multi-talented designers and developers who share a passion for elegant and sophisticated design. We specialise in website design, development, branding and graphic design.

We have experience working with a variety of clients – from start-ups to established businesses; so whatever stage your business is at we can help you build your brand and engage your audience.

Our work is our passion and our focus; this drives us to exceed expectations time and time again. We're always interested in new and exciting projects, simple or complex.

Development

Flash Development
Client Side Development
Server Side Development
Optimisation

Other Services

We offer a variety of additional services – including premium web hosting, domain name registration and creative copywriting.

how we do it / our process

Our methods are simple – we apply a staged approach to every project that allows us to produce tailored solutions, designed to address specific needs.

We work closely with our clients every step of the way, forming a solid understanding of requirements, developing concepts and ideas and then putting them into production. Working together during and after launch ensures the final result is of the highest quality.
